“Special Moments” Roses

A scented rose bush in flower makes the perfect gift to say “Thank You” (pink), “Good Luck” (apricot), “Congratulations” (rose pink), or to celebrate a “Happy Anniversary” (deep pink) or “Fond Memories” (orange).

All “Special Moments” roses are hardy, vigorous, repeat flowering and easy to grow. All varieties make ideal garden plants, amongst other flowers, in the mixed border, as a specimen in the rose garden, even as a novel low scented hedge.

Roses in containers

Roses in pots on the patio are a welcome addition to any garden - ideal if space is limited, or the garden is already well planted. Choose a container with a drainage hole and plenty of depth, as a good root run is essential for healthy growth. Miniature varieties need a minimum depth of 30cm (12”), Patio roses at least 45cm (18”) and allow 60cm (24”) for Hybrid Teas and Floribundas.

Plant using John Innes no.3 loam-based potting compost and finish by watering thoroughly to settle soil around the roots.

All rose bushes need to be watered regularly and fed weekly with a liquid fertiliser. Alternatively, feed twice a year with Miracle-Gro Rose Plus; once in early spring and again in mid-summer, and water when required.

So why not give a special person a gift that will give joy for years to come ?
